

On May, 1-2nd in V.Volochok within the limits of youth Christian movement of the Tver region a spring informal meeting passed.

Why it was informal? Because its format is differed radically from all passing for the last couple of years of meetings and conferences. There were no training seminars and lectures, there was no program painted constantly.

But there was another things. There was a real dialogue which in the modern world is even more often replaced with dialogue on the Internet and social networks. Participating in interesting competitions and sports, we saw on faces each other true smiles, instead of callous "smilies". We heard warm words, instead of read "dead" letters on the monitor. We encouraged and hung together, instead of put anything non-significant and to anybody unnecessary points. And it was precious.

We are grateful to God, for presenting to us this time. Thanks to the churches of V.Volochoka for the given premises and catering services. Especial gratitude to a pastor Peter Gubenja for his self-denying work for our Lord and area youth, and also gratitude to all command of organizers.

Church "Living word" youth (Udomlya)
