We finished a roof repair of the House of Prayer.

We decided not only to change a roofing material, but also to make small reconstruction of farms as there were defects which led to occurrence of leakings during heavy rains and snow thawing.

God blessed this work. He sent good weather. We could get a necessary material.

We express warm gratitude to those people, and also to churches which means for roof repair

have offered. Let the Lord will return a hundredfold to you!

Here is how the new roof on the House of Prayer now looks:
