On September 9 brother Stepan visited our church.

He came from Chukotka to share his testimony how God changed his life. Stepan told about people of Chukotka. The big trouble that they worship to various idols instead of the Living God.

But now these people come to God and start to visit church not one by one, but by the whole

families. Stepan also very well sings.

For us Stepan's testimony became a striking example of love and mercy of our God to all people. The Lord goes there where it is so difficult to come for people. People who also need

salvation live there.
