

On January 26 a regular session for sisters took place.

All of them are trained in absentia at Bible institute. Session took place in Tver Baptist Church.

Six sisters from our church were at session . They said that training helps to learn God, his Word.

Among students there is an eighty-year-old woman. When she was asked: "Why do you study here?" , she told that thinks to live one hundred years

. That is in the remained 20 years of life she not only will graduate the institute, but also will use the received knowledge into practice. Let her example will inspire all of us to study God's Word and to serve the Lord!
