

On July 20 the First mobile clinic worked in our church building.

Its organizer is the Medical Christian Association of Russia (MCAR). Its purpose is joint service of Christians physicians to locals through carrying out free medical examinations, diagnostic tests and delivery of preparations.

The following experts made reception: the therapist-pulmonologist, the therapist - the general practitioner, the surgeon, the pediatrician, the clinical psychologist.

Researches were conducted also: Spirometry, electrocardiogram, blood and urine analyses, survey of the oculist.

Reception of experts, carrying out researches and delivery of preparations took place free of charge.

About 50 people were on inspection. A half of them aren't parishioners of our church, some

stepped for the first time over a threshold of the House of the Prayer. They were told about the Lord.

We thanks all Christians physicians who offered their days off to arrive to us for this important service.
