

Our classes about "Prevention of abortions" have come to the end.

Our lecturer Anatoly Manukov has told about the premarital relations of the guy and girl, about what they can lead to. And he also have talked that God has created the man and the woman and has united them in one flesh. God wants that we stay far from adultery and could live in purity.

The brother Anatoly has held a discussion. Everyone could express their opinion concerning the sexual relations before marriage. God gives wisdom to each of us and we all are against such relations, it is a sin and God has the right to punish because of disobedience.

We'd like to thank Anatoly and Olga Manyukov for these seminars. Thanks for this fine time and for manual in this serious and essential subject! Let the Lord will bless you and will open new doors for holding similar lectures. Praise the Lord!
